铜的色彩自然丰富，随时间的变化而变化

Copper Colors

Shannon Graphics adapted from Copper Institute Natural weathering color chart

本色铜表面呈亮红色，受自然氧化的影响，会发生从亮红→暗红→古铜→绿铜的颜色变化，充分展现了铜颜色随时间迁移而变化的生命特点。

公司介绍 About us

上海华源复合新材料有限公司是中外合资企业，总投资3200万美元，专业生产华源牌&ALUCOBEST金属复合板系列产品：铝复合板、铜复合板、不锈钢复合板、钛锌复合板、镀锌钢复合板、双金属复合板、覆膜抗污复合板、特色铝单板、三维复合板和蜂窝复合板。

公司拥有30000平方米的标准工业厂房，年产各种华源牌&ALUCOBEST金属复合板800万平方米以上，连续多年被评为上海市高新技术企业，现为中国建筑材料联合会金属复合材料分会副理事长单位、上海市建筑材料行业协会副会长单位。公司在中国26个省市设有办事处；在全世界80多个国家设有代理商。

公司已通过质量管理体系ISO9001、环境管理体系ISO14001、职业健康安全OHSAS18001。产品通过中国质量认证中心3C产品认证、中国建筑材料检验认证中心CTC产品认证和欧盟安全CE认证。研制开发的铜复合板、钛锌复合板、不锈钢复合板和双金属复合板等先后获得专利授权近百项，曾获得国家标准化委员会颁发的“采用国际标准产品标志”证书，通过世界权威检测机构瑞士SGS、英国INTERTEK相关检测，达到美国ASTME84、E119、NFPA285、欧盟EN13501和英国BS476标准。

公司秉持着二十余载在复合金属材料领域上的专注与坚持，高效及高品质的制造流程，以客户为中心、品质技术双驱动的系统管理能力。未来，我们仍以永续经营、树百年企业的态度，为客户提供多元化的产品设计一体化服务作为自我期许与使命，继续朝着“布局全球、服务全球”的中国复合金属材料产业技术先导企业的美好愿景，持续引领着中国金属复合材料行业的发展，不断向前迈进！

Shanghai Huayuan New Composite Materials Co., Ltd. is a joint venture, with a total investment of 32 million USD, specializing in manufacturing Huayuan Brand and ALUCOBEST brand Metal Composite Panel series including Aluminum Composite Panel, Copper Composite Panel, Stainless Steel Composite Panel, Zinc Composite Panel, GI Composite Panel, Metal / Metal Plate, Film Faced Metal Composite Panel, Specialty Solid Aluminum Panel, 3D Composite Plate and Honeycomb Composite Panel.

The company has a standard industrial plant of 30,000 SQM, annual output is over 8 million SQM of various Huayuan brand & ALUCOBEST brand metal composite panels. It has been rated as a high-tech enterprise in Shanghai for many years. Now the company is the vice-chairman of China Building Materials Industry Association Metal Branch, the vice-chairman of Shanghai Building Materials Industry Association. It has sales networks in 26 provinces in China and has agencies in over 80 countries overseas. The company was certified with ISO9001 in Quality Management Systems, ISO14001 in Environmental Management Systems, OHSAS18001 for Occupational Health and Safety. The products also passed 3C (Certificate for China Compulsory Product Certification), CTC (China Building Materials Certification) and CE of the European Union. Our Copper Composite Panel, Zinc Composite Panel, Stainless Steel Composite Panel and Metal / Metal Plate has obtained nearly 100 National Patents.

It has obtained the "International Standard Product Mark" certificate issued by the National Standardization Management Committee and has passed the relevant tests of Swiss SGS and British INTERTEK, complying to USA ASTM E84, E119, NFPA285, European Standard EN13501 and British BS-476 standard.

For more than 20 years, the company adheres to the dedication and persistence in the field of metal composite materials, efficient and high-quality manufacturing process, and the management driven by customer-orientation and quality & technology capabilities. In the future, it shall continue to be committed to growing to a century-old enterprise, to the provision of diversified products and one-stop service comprising design and manufacturing. With the vision of "Global Business, Global Service", it strives to become a pioneering enterprise in China's composite metal materials industry.

Brass-Alu (Bronze)

注意事项:

- * 由于电解铜的颜色分二次生产出来会略有色差, 建议将项目总需求放在一个订单中采购, 以确保产品颜色的一致性。如必须补板, 应允许补板与原供板存在略微色差。只能将相同批次的复合板使用在同一平面, 不同批次产品不能混用。
- * 其中本色铜表面呈亮红色, 受自然氧化影响, 会发生从亮红→暗红→古铜→绿铜的颜色变化, 这是铜装饰颜色随时间迁移而变化的生命特性。
- * 若表面涂有耐指纹清漆可延缓颜色的变化进程。
- * 着色铜复合板由于着色是纯手工制作, 无法做到颜色完全一致, 表面差异是一种正常情况, 不会影响材质的内在质量。
- * 如选用没有任何处理的铜本色复合板, 务必戴好手套施工, 避免触摸铜的表面, 以防印迹产生。
- * 本色卡仅陈列部分产品, 订货以封样为准。

- * Color variation may occur between different production batches of copper cathode. It is recommended to place a total requirement for a project in one order to ensure the consistency for colors. For additional orders, a slight color variation between the panels from previous batches and new batches are allowed. Only the same batch of panels are recommended to be used in the same facade or wall, and different batches of products cannot be mixed during installation.
- * The natural copper color is bright red and its dynamic color-changing process due to natural oxidation will start from bright red, dark red, bronze to patina, which is the characteristic of the copper color changing over time.
- * The varnish works to provide anti-fingerprint function and slower the color-changing process.
- * The weathered copper/brass surface is manually made thus it's impossible to achieve the identical color. The color variation is normal and the quality of the material will not be influenced.
- * If you choose the natural copper/brass color without any surface treatment, please wear gloves to avoid touching the copper/brass surface directly and then cause imprint during the installation.
- * This color chart only list part of the product. Welcome to request other samples. Order based on the sealed sample.
